- Frequent usage: 480 lbs./pair Drawers up to 42" wide**
- Mobile applications: 360 lbs./pair Drawers up to 32" wide*
- Flat mount: 180 lbs./pair Drawers up to 32" wide*
- Bracket-mount applications: Drawers up to 22" wide: 600 lbs./pair Drawers up to 42" wide: 420 lbs./pair

* Lengths 10'–36'. For load ratings on longer lengths, consult product technical sheet. Load ratings based on 10,000 cycle test.

** Lengths 10'–36'. For load ratings on longer lengths, consult product technical sheet. Load ratings based on 75,000 cycle test.

Model 9301E

Model 9301E is designed for use in a variety of storage applications including vehicular storage, or other wider, heavier drawers. Platform bracket kits provide six additional mounting configurations, offering installers a broader range of application solutions.

Model 9307E

Lock-out

Heavy-Duty with a lock-out for applications where secure access to drawers and trays adds a measure of safety.

Model 9308E

Lock-in & Lock-out

Lock-in and lock-out features to ensure drawers stay securely closed during transit in applications such as utility vehicles.

Heavy-Duty Slide Options

Model 9328E

Pocket & Bayonet Mounting
Lock-in & Lock-out

Heavy-Duty load rating with lock-in/lock-out to keep drawers securely in place during access or transit.

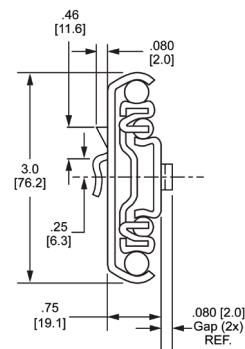

Model 9322E

Pocket & Bayonet Mounting
Non-locking companion slide

Model 9322 is unhandled and can be used on either the left or right hand side of the unit.

Pocket

Bayonet

Pocket & Bayonet Mounting – Toolless Installation

These products have a standardized bayonet/pocket installation system that simplifies and speeds up slide integration. Installers simply snap the slides into position, without the need for screws, washers, or lock nuts. The slide is secured in position with locking tabs or barbs.
